WE DIDN'T INVENT WATER

WE JUST PERFECTED IT.

Water should be fresh, clean and plentiful. Classic Equine By Ritchie waterers deliver just that; fresh water on demand, in any climate conditions, automatically. That means your horses stay healthier and you stay happier, all because your water worries are over. Now that's water perfected.

Kaeco Performance Products

BIOTIN 800® Z

"During the summer it rains everyday. After using this product for a few months I noticed a huge difference in their hooves. Without mentioning this supplement to my farrier, I asked him about the health of their hooves. He said, 'Looking at the amount of water in the paddocks and comparing your horses to others in the area, you have to be doing something different! Their hooves are healthy and have solid walls with no flaky soles.' Without this product it would be impossible to keep top-level horses at their best."

EPSOM SALT POULTICE

"At Dresden Manor Farm, horses come first. With this poultice, I have the best product to wrap and pack the horses' hooves in the same bucket. If your horse has any inflammation, this product is your best option both for hooves and legs. I've also used on sore backs and it works great."

EQUI-MAST

"The summer was brutally hot and humid. When I first moved to south Florida, one of my horses colicked almost every day due to stress of some kind. Knock on wood, since starting this product, I have been colic-free. Every horse in my barn lives on this supplement and beyond having no vet bills they are all shiny and happy!"

A man and a young boy, both dressed in cowboy attire including hats and chaps, are walking away from the viewer down a dirt path. The man is on the left, wearing a striped shirt and dark chaps, holding a lasso. The boy is on the right, wearing a plaid shirt and dark chaps, also holding a lasso. The background is a warm, hazy landscape.
